

DR ANCA ANTONIU
Specialist Oral Surgeon

DMD PGCert (implantology) GDC: 244889

Bucharest University of Medicine and Pharmacy, PGCert Implantology, 2011
Universitatea De Medicina Si Farmacie 'Carol Davila', DMD Dentistry, 2010

Anca is our Oral Surgery Specialist here at Smileworks. Although she can place Implants, her scope of practice is centred around impacted or surgical extractions, surgical exposure of impacted canines, management of trauma, bone augmentation, apicectomies and frenectomies.

Anca is an extremely talented oral surgeon and her absolute devotion to her patients and their care is what sets her ahead of many in her field. The procedures she carries out can be daunting and frightening for patients and her confidence and calm approach (from years of experience with hospital trauma cases) makes her an excellent choice for a wide range of indications.

Dr Anca Antoniu

SPECIALIST ORAL SURGEON

"I had a tooth extraction today and was very nervous after past treatment with other dental surgeries but the staff were relaxing and the extraction was done fast, easy and with no pain. Now 4 hours after best I've ever felt. Hardly any pain won't hesitate to go again. Thank you.
