Charité, Berlin, Germany at the department of Molecular Biochemistry, PhD, 2007
Free University of Berlin. Dental State Examination (equivalent to BDS), 2002
Technical University of Berlin, Electronic Engineering, 1998

Dr Pinar is a PhD qualified dentist and has a formidable CV including training in advanced restorative, endodontics and implantology. She is the referral of choice for complex restorative cases and prosthodontics. She also restores implants and works closely with our oral surgeon and implantology team to ensure precise and perfect clinical outcomes on every patient in her care. Pinar is also a natural communicator and loves her patients as much as they love her. She has a devout following of patients at Smileworks. She also has a thriving facial aesthetics practice and has a pragmatic and talented approach to her work.
